

AMIT VISHWAKARMA | FRONT END DEVELOPER

The things that I love most are writing code and learning about new technology. This curiosity has enabled me to learn Full Stack Web development. Looking for a position that would allow me to use my system design skills, support abilities and critical thinking.

LeetCode: **just9krish**

INTERESTS

Outdoor sports – Football, Cricket

Watching Anime and reading Manga's

Competitive online multiplayer game

PROJECTS

Find Countries | GitHub | Live

- A website where you can **type a country's name** or a random one to find out its details.
- By choosing a region from a drop-down menu, the user can filter the country by choosing from Asia, America, or Africa.
- Uses **tailwindcss** for design and react and **Context API** for **state management**.

Quizzical | GitHub | Live

- A web application that uses quizzes to assess your knowledge in many fields.
- Fill out the form to receive the appropriate number of questions, question type (such as multiple choice or true/false), and difficulty level.
- Use the **OpenTB API** to retrieve the quiz data, **ReactJS** to create the user interface, and **Tailwind CSS** to create the design.
- This was the React Basic course's final **independent** project.

To-do App | GitHub | Live

- Using a web application to organise your tasks will help you save time.
- Add the job you wish to finish, **then rank it in order of importance**. your completed and pending tasks are filtered. **delete the completed task**.
- Use **Vanilla JavaScript** and **SCSS** to construct, and **dark mode** is supported.
- A personal project to hone my abilities with frontend mentor as my source of design inspiration.

Tip Calculator | GitHub | Live

- To save you the trouble of having to figure out how much to tip based on the cost of the services.
- Determine the appropriate tip **amount based on the tip's proportion of the total bill**. Additionally, it distributes an equal amount of money to pay by each individual.
- constructed using **CSS** and **JavaScript**.

CERTIFICATIONS

A Certificate of Responsive website design by **FreeCodeCamp**.
